CI/CD & Orchestration: Jenkins, TeamCity

Containerization: Docker, Vagrant

Programming & Scripting: Java/J2EE, Python, Shell, Ruby

Code Management: Git, SVN, CVS

Automation & Testing: Rundeck, Selenium

Databases: Relational / SQL

PROFESSIONAL EXPERIENCE

Program Manager

Dec 2018 — Present

ValueLabs Technologies, Hyderabad

- Manage a portfolio of 6 concurrent projects across DeFi, Healthcare, and enterprise domains with a combined team of 130+ engineers, driving \$14M in revenue over 2 years.
- Lead a cross-functional team of 80+ engineers building decentralized finance (DeFi) platforms, including smart contract deployment pipelines and blockchain infrastructure.
- Oversee HIPAA-compliant Healthcare systems, patient data platforms, and clinical workflow automation.
- Direct 24x7 operations covering 2 production releases per month, maintaining 99.9% uptime while reducing MTTR by 60% through PagerDuty and runbook automation.
- Championed process automation initiatives that increased team productivity by 40% and reduced operational costs.
- Communicate project status and key milestones to executive leadership, ensuring alignment with strategic business objectives.

Technical Architect

Mar 2018 — Dec 2018

NISUM Technologies, Hyderabad

- Led DevOps implementation for major e-commerce clients, enhancing deployment pipelines and infrastructure automation.
- Authored Ansible playbooks establishing a fully automated Continuous Deployment pipeline, reducing manual intervention and deployment errors.
- Designed and implemented scalable CI/CD pipelines for existing applications using Jenkins.

Technical Architect & DevOps

May 2017 — Mar 2018

Quest Global, Trivandrum

- Architected and implemented a comprehensive DevOps strategy for the GE Grid division, integrating modern practices into the development lifecycle.
- Developed a DevOps starter kit adopted organization-wide, used to demonstrate capabilities and secure new customer engagements.

Technical Manager

Feb 2006 — May 2017

Tech Mahindra Ltd, India & USA

- Progressed from Team Member to Technical Manager over 11 years, leading teams of up to 25 engineers across onshore and offshore locations.
- Spearheaded DevOps transformation for legacy PLM applications, automating build and deployment to handle 3,000+ builds annually with on-demand deployment capability.
- Fostered a culture of continuous learning by conducting technical trainings and organizing company-wide hackathons.

EDUCATION & CERTIFICATIONS

Education

B.Tech, Computer Science & Engineering

Koneru Lakshmaiah College of Engineering (KL University), Andhra Pradesh — 2001–2005

Certifications

- AWS Developer Associate — Simplilearn
- TOGAF 9 Certified
- ITIL 4 Foundation Certified
- PagerDuty Foundational Practitioner
- Certified DevOps Professional
